

Microsource Product Obsolescence Notice

March 23, 2017

Dear Valued Customer,

Giga-tronics appreciates and values its business relationship with you and we look forward to your continued interest in our products and services.

This letter is sent to advise you that Giga-tronics will discontinue manufacturing the Microsource MCO, LPO and FTO series YIG Oscillators and SNY series Synthesizer. These products are being discontinued effective March 23, 2017. Giga-tronics strives to provide the highest levels of service and support to all our customers. Our intent is to provide service and support for the existing Microsource customers until the warranty expired. Service is on a best effort thereafter.

We apologize for any inconvenience this announcement may cause and remain dedicated to meeting your future test and measurement needs.

Giga-tronics will continue to offer Custom Fast Tune Band Reject Filter, Custom YIG Components & Sub-assembly and Custom Synthesizers Modules and Sub-system. If you have any project in mind that requires the tailored solution, please contact our expert team to discuss.

To best serve you, all inquiries and requests should be directed through your normal sales channels and contacts.

Sincerely,
Mike Penta
VP of Sales and Marketing
