Giga-tronics announces alliance with Liberty Test Equipment for Rental and Distribution of RF and Microwave Test and Measurement Equipment

SAN RAMON, Calif. -- November 1, 2011 -- Giga-tronics (NASDAQ:GIGA) announced an agreement with Liberty Test Equipment to offer rental and distribution of Giga-tronics' high-performance RF and Microwave Test and Measurement equipment in the USA and Canada.

Liberty Test Equipment, a leader in electronic test equipment asset management will provide rental and distribution of Giga-tronics RF and microwave test solutions including fast-switching microwave signal generators, microwave power amplifiers, and high-accuracy power meters and sensors. The partnering agreement will include options for integrated promotion, advertising and sales of test solutions.

"Liberty Test Equipment is excited to embark on this new alliance with Giga-tronics. We believe that our customers will welcome their state-of-the-art product line and Giga-tronics' clientele will benefit from our flexible rental solutions" said Jiuru Hu, VP of Business Development of Liberty Test Equipment.

John Regazzi CEO of Giga-tronics Inc. commented "we are extremely pleased to have concluded a relationship with Liberty Test Equipment that allows both of us the opportunity for further growth in our respective markets. Liberty Test Equipment has demonstrated extensive knowledge in the RF & microwave field allowing them to support our customers."

“With the addition of Liberty Test Equipment, Giga-tronics significantly strengthens its business of delivering and supporting high performance test and measurement equipment to its customers,” said Malcolm Levy, Executive VP of Sales.

Giga-tronics is increasing its focus on providing flexible rental and leasing solutions. “We entered into the agreement with Liberty Test Equipment in order to develop business, and service customers with a dedicated commitment to fast response.” said Levy.

About Liberty Test equipment:

Liberty Test Equipment is a quality source for buying, renting and leasing new and refurbished electronic test equipment. Liberty Test Equipment’s 100% customer satisfaction guarantee and commitment to product selection, competitive prices and dedicated customer service distinguishes their business from others.

With more than 5,000 products available, Liberty Test Equipment offers test equipment for a variety of applications. They carry oscilloscopes, spectrum and network analyzers, signal generators, power meters, frequency counters, power supplies, equipment racks and wireless and optical test equipment. Liberty Test Equipment was founded in 2002 and is located in Rocklin, California.

Additional information about Liberty Test Equipment is available at www.libertytest.com or 877-417-7413.

About Giga-tronics:

Founded in 1980, Giga-tronics Incorporated (Nasdaq “GIGA”), headquartered in San Ramon, California, is a leading engineering-and-design manufacturer of best-in-class RF and microwave signal generator, microwave power amplifier, USB power sensors, microwave power meters and broadband switching matrices. R&D, production and calibration managers, scientists, engineers and technicians, around the world, use Giga-tronics test equipment and achieve lower cost, higher productivity and greater ease of use in many applications: ATE systems, aerospace & defense, wireless communications and microwave component test.
