Giga-tronics Strengthens Leadership in Switching Solutions

SAN RAMON, Calif. -- December 12, 2011 -- Giga-tronics (NASDAQ:GIGA) announced that Robert Waldeck has joined Giga-tronics as Vice President of Business Development for Switching Solutions effective on December 1, 2011.

Mr. Waldeck has held positions as a Sales Representative and in Sales Management in the T&M instrument industry during the past 15 years and prior to that worked in the Defense and Space industry. Mr. Waldeck spent over 16 years developing Automated Test Equipment for various branches of the Armed Forces at a prominent Defense contractor. He holds a BSEE from NY Institute of Technology and an MBA from CW Post, Long Island University.

“With the addition of Bob, Giga-tronics significantly strengthens its business of delivering high performance RF and Microwave signal switching solutions to its customers,” said Malcolm Levy, Executive VP of Sales.

Giga-tronics is increasing its focus on providing customized switching solutions optimized for systems integrators and ATE applications, as well as test instrumentation and microwave components. “We hired Bob to develop business, work closely with customers and provide a dedicated commitment to fast response.” said Mr. Levy.

About Giga-tronics:

Founded in 1980, Giga-tronics Incorporated (Nasdaq "GIGA"), headquartered in San Ramon, California, is a leading engineering-and-design manufacturer of best-in-class RF and microwave signal generator, microwave power amplifier, USB power sensors, microwave power meters and broadband switching matrices. R&D, production and calibration managers, scientists, engineers and technicians, around the world, use Giga-tronics test equipment and achieve lower cost, higher productivity and greater ease of use in many applications: ATE systems, aerospace & defense, wireless communications and microwave component test.
